Smart Mortise Lock

Yale offers a wide range of Smart Mortise lock for residences. It is designed with both handle and lock mechanisms integrated into one compact unit, it tends to replace your existing lock mechanism entirely. Yale Smart Mortise locks provide more robust security for your home.

It is designed for European standard and it can be used on wooden swinging doors.

Yale ByYou Pro Lever Mortise

Yale ByYou Pro Lever Mortise is elegantly slimmed with soft, curved outline and rounded edges, designed to be comfortable and intuitive for all users regardless of their age, physical ability, or level of technical expertise. The ergonomic design and family-friendly features make it easy to operate. The fingerprint sensor is perfectly placed on the lever handle for seamless grab, touch and go opening experience.

YDM7220 BioSecure™

Keep your loved ones safe and healthy by ensuring all touch points around the house is cleaned and disinfected properly and frequently. Thanks to the **BioSecure™** anti-bacterial solution, our lever handle is coated with **BioSecure™**, which is formulated using silver ion to inhibit bacteria growth and reduce the risk of secondary infections, especially in elderly people and the young ones.

You can choose from different types of door access control for your home, from fingerprint scan to personalised PIN code, RFID key tag or simply via the Yale Home app. Yale redefines peace of mind with the **BioSecure™** technology that addresses hygiene concerns while you enjoy a convenient and secure entrance solution for you and your family.

YDM3109A

Monitoring door access remotely has never been easier. With Yale Home app, you will get push notifications on your phone in an instant whenever someone comes and goes, or if there's a jammed lock or door intrusion. Like the more advanced smart locks these days, **YDM3109A** has extra measures to handle an emergency situation with its own anti-panic egress function. The lock has been specifically designed with this in mind, opening from the inside by simply pushing the safe handle down. Similarly, the safe handle can prevent any break-in attempts.

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDM4109A

YDM4109A comes with a voice guide feature that provides the status of the lock and details on how to personalise each feature and mode to suit the convenience of the user. In using a smart lock such as the **YDM4109A**, you can cast a wider security net to safeguard your home against burglary or intruders. No longer do you need to worry about forgetting to lock the door before leaving for work or vacation. **YDM4109A** is implemented with DoorSense™ technology that lets you know if the door is closed or left ajar. And if the door has been left ajar, the auto locking system will automatically lock the door for you within a 5-second timeframe.

YDM3115V

It's natural for a home to have multiple guests coming together under the same roof. Hence, the **YDM3115V** smart lock lets you enter home without needing to remember PIN codes simply because you can use RFID key tags for easy door access. You can even issue single-use temporary passwords for your visitors and set schedules to let them in while you're away. The voice guide feature that comes with **YDM3115V** is there to walk you through the step-by-step process on various operations possible on your smart lock, including PIN code scrambling to make your code harder to follow.

Smart Rim Lock

Yale Smart RIM Locks are good for adding on to an existing door mechanism. If you prefer to use existing handle or want to keep an existing deadbolt lock, then Yale Smart RIM locks are definitely your best choice for giving your home an extra security.

Yale ByYou V Pro

Yale ByYou Pro Rim has streamlined design with smooth, curved edges. Its user-friendly features and ergonomic build ensure simple operation for the whole family. Sporting a modern twist, a ring-shaped handle sits atop the front body, paired with a fingerprint sensor below for effortless access on the move. Engineered with precision, the handle comfortably fits 2-3 fingers, designed to eliminate any risk of pinching when closing the door.

Smart Deadbolt Lock

Yale Smart Deadbolt locks are good for adding on to an existing door mechanism. If you prefer to use your existing handle or want to keep an existing deadbolt lock, Yale Smart Deadbolt lock will be your ideal choice that gives you extra security.

Yale ByYou D Pro

The **Yale ByYou Pro Deadbolt** boasts a design akin to the **Yale ByYou Pro Rim** Smart Lock, characterized by its sleek front body featuring a gracefully curved outline and rounded edges. Atop this body rests a ring-shaped handle, facilitating seamless access, complemented by a convenient fingerprint sensor below for effortless on-the-go entry. Crafted with ergonomic precision, the handle accommodates 2-3 fingers comfortably, ensuring a smooth door-closing experience devoid of any pinching risks.

Smart Gate Lock

Yale Smart Gate locks are suitable for apartments and residences, it is designed for minimum modification of your metal gate that provides you a good protection for your home.

YDR50GA

The fingerprint recognition is one of the highlights of **YDR50GA**. Other ways to use the lock include RFID keys, PIN codes, smartphones, remote control, and mechanical keys override. Using the Yale Access app on your smartphone is an easy way to use your fingerprint instead of a PIN code or an RFID key when your hands are full. With just a touch of your finger, the sensor quickly reads your fingerprint and automatically unlocks the gate and door simultaneously.

*Yale Home kit is required for Yale Home functionalities (sold separately).

Smart Glass Door Lock

Yale Smart Glass door lock is your perfect choice for any glass door with single leaf door or double leaf door. It is designed for minimum modification of your glass door that provides you a good protection for your home.

YDG413A

YDG413A in simply elegant mirrored finish provides keyless access for glass doors and has access solutions like PIN code and fingerprint. Convenience wise, it's much easier to enter a passcode or use your fingerprint to enter the glass door, rather than using a key card. Plus, with a smart lock, you can lock the door remotely – especially when you're dealing with sensitive data in your office room and think you should prevent theft and other forms of trespassing.
